## **Main topics of the NARBAC 2018 conference:**

- changes in quaternary sediments based on paleoenvironmental data;
- changes in water, soil, biological and mineral resources;
- past record and analysis of current human economic activity in the natural environment;
- methods of past changes testing and forecasting;
- emission of pollutants into selected environmental compartments;
- climate and water policy - reduction and adaptation measures;
- changes in agricultural production conditions;
- trends in biodiversity change in different border ecosystems;
- development of tourism (geotourism) and recreation;
- the impact of global changes on the sector economy: forestry, energy, transport, agriculture, spatial management and urban areas;
- sustainable regional and local development taking into account climate change;
- the functioning of protected areas under conditions of climatic instability.

## Publication of papers:

### *Publication of conference materials:*

The abstracts of presentations and posters should be send to: [aneta.marek@apsl.edu.pl](mailto:aneta.marek@apsl.edu.pl) till 15<sup>th</sup> of May, 2018 (deadline). The Book of abstracts will be available as PDF on the conference web-page as well as will be delivered to the participants on CD.

### *Post-conference materials:*

When the NARBAC 2018 conference is accomplished the organizers plan to edit and publish a special issue of the Studia Quaternaria entitled "Natural resources of border areas under a changing climate". The articles should be prepared in agreement with SQ requirements and submitted not later than before 30th of October, 2018. The Scientific Committee will assess submitted papers according to the theme of the conference and selected papers will be further evaluated under normal peer review procedure. Additionally, all the papers presented in NARBAC 2018 could be submitted to the collaborating journals for inclusion in regular issues after the normal peer review of the journals.

Papers can be also submitted to the collaborating journals:

- Studia Quaternaria(in english)
- Słupskie Prace Geograficzne (polish, russian, english)

- Słupskie Prace Biologiczne (polish, ukrainian, russian, english)
- Baltic Coastal Zone (in english)
